

Doctor Birgitte Astrup

Doctor Christina Oxenvad

Health Clinic.
Every Tuesday 5 – 7 p.m. *

* The clinic is closed between Christmas and New Year and in connection with other Danish holidays.

Every Tuesday 5-7 p.m. Pro Vest offers **anonymous** medical consultation at our premises.

Sjællandsgade 98 B (ground floor, left).
7000 Fredericia
Phone: +45 7593 2169

The female doctor M.D. can
examine for:

- commonly occurring illnesses and pain
- sexually transmitted diseases, HIV/AIDS and hepatitis
- pregnancy.
- atypical cells of the cervix¹
- tuberculosis X-ray

offer:

- Vaccination against Hepatitis B²

answer:

- questions about various forms of birth control
- any other questions / health concerns.

¹ PAP-smear - A test for a virus that may cause cancer of the cervix. It is generally regarded as an STD (sexually transmitted disease). We now offer PAP-smear, which will show if a woman has developed atypical cells that sometimes may develop further into cancer, or if she has developed cancer

² Hepatitis B - **NB:** Test of immune status (blood sample) before vaccination is necessary, as vaccination against Hepatitis B is impossible if you are already infected prior to the vaccination, regardless of present health.

- The vaccination consists of 3 injections over a 6 month period. You are then protected against hepatitis B for the next 20 years.

We offer a vaccination-certificate which will enable you to continue the vaccination program in another health facility.

Confidentiality

We observe professional secrecy and never pass on any information without the full agreement and understanding of the woman involved.

Each woman is given a registration number to ensure that she receives the results of her own examination. In this way anonymity is also guaranteed for each individual.

No reservation needed

It is not necessary to make an appointment – just show up.

If transportation to the clinic is a problem – call us and we will find a solution.

At our premises there is access to the Internet, various information materials, books you can borrow and second hand clothes.

Of course we also offer you a cup of coffee or tea and a chance to talk to us.

Free of charge

The examination and any possible vaccination against hepatitis B is free. Any other medication and means of birth control must be paid for.

We hand out free condoms and lubricants as well. It is also possible to see and buy special condoms etc.

Kind regards
